

# Bug Report (ExpenseEase)

**Nethsilu Marasinghe**

## **Verify password which has minimum 8 characters (TC\_SU\_004)**

Environment:

- Tested on: Chrome (Windows)
- Backend: Node.js, Express.js

Bug:

- When type a password with 6 characters, it redirects to the dashboard

Steps to Reproduce:

- Correct the code to redirect to the dashboard with a password with minimum characters.

Expected Result (TC\_SU\_004):

- Should redirect to the dashboard
- Should display "invalid password format" message

Actual Result:

- Redirects to the dashboard

Priority: High
